

(1쪽 중 제1쪽)

The site plan illustrates the layout of the Gyeongju National Museum. The main building is a large, rectangular structure with a grid-like internal layout. To its left is a large parking lot labeled '공영주차장 (주차 여량)' with a dashed boundary. To the right is another parking lot labeled '폐역시설주차장'. The plan includes various dimensions: 37,900, 3,000, 99,000, 3,000, 9,500, and 81,000. It also shows the '도로 경계선' (road boundary line), '인접단지 경계선' (adjacent complex boundary line), and '지수표(54TON)' (water level marker). A north arrow is located in the top left corner.
